

POWERSTAR 4

Gas Boosters Tool & Die Application

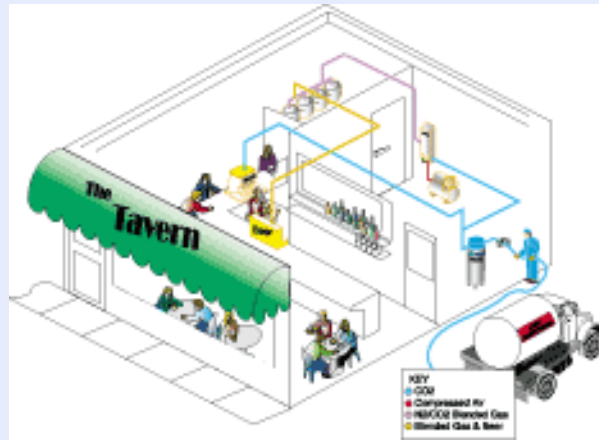

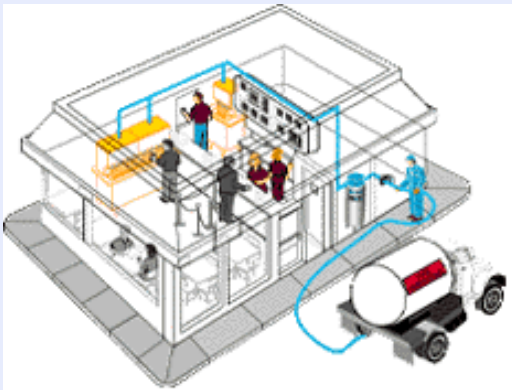

A SAFETY RELIEF VALVE CONTROLS THE DRIVEN AIR.
A HIGH PRESSURE REGULATOR IS INCLUDED ON THE DISCHARGE SIDE OF THE BOOSTER ASSEMBLY, ALONG WITH A 3 METER CHARGING HOSE ASSEMBLY. THE CHARGING HOSE ASSEMBLY ALLOWS FOR THE PRECISE CONTROL OF THE CHARGING NITROGEN GAS SPRINGS AND SYSTEMS. PRECHARGE AND HIGH PRESSURE GAUGES INCLUDED.

PowerStar 4 Application Nitrous Oxide

PowerStar 4 Application

Long Stroke CO2 pump

CO2 CHARGING SYSTEMS
BEVERAGE INDUSTRY

CHART INDUSTRIES:

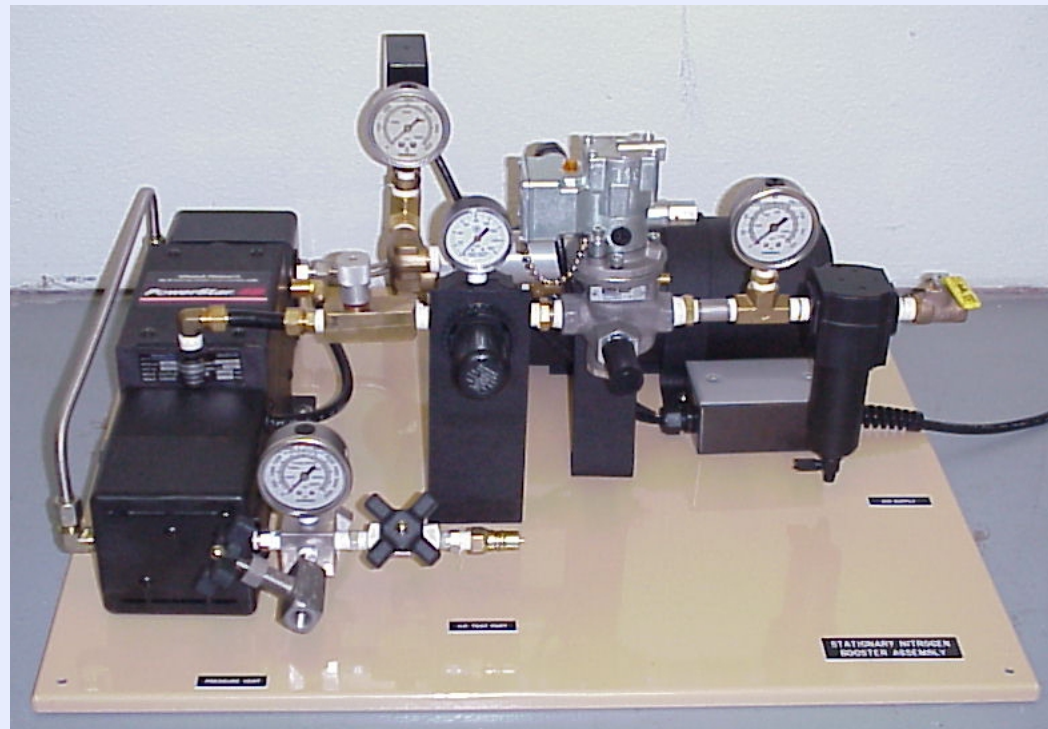

The leading manufacturer of cryogenic systems and components worldwide.

The Chart organization serves the global industrial gas and hydrocarbon processing markets and numerous down-stream end use applications.

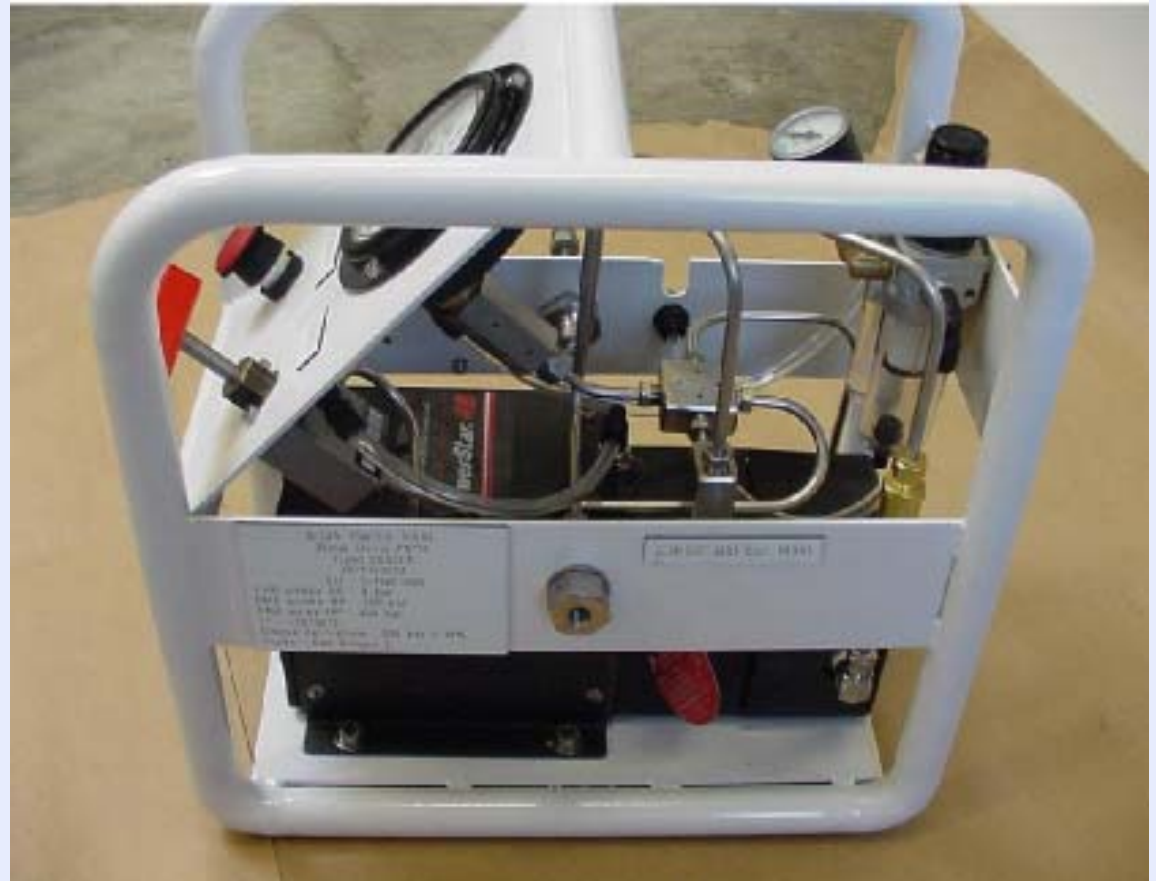

POWERSTAR 4 Gas Boosters

Nitrogen Charging Systems - Enertech
Automotive Market

POWERSTAR 4 Gas Boosters

Nitrogen Charging Systems – Nova Swiss, France Automotive Market

POWERSTAR 4 Gas Boosters

Nitrogen Charging Systems
Ground Support Equipment

Charging Accumulators, Struts, Tire Inflation
